

inside active directory a pdf

Inside Active Directory is a 960-page book about the architecture, administration and planning of Active Directory. The target audience is a current NT professional, but also a current Windows 2000 professional will learn more than a few things from this book.

Scripts and Files of the Inside Active Directory book

Active Directory Federation Services (AD FS) is a single sign-on service. With an AD FS infrastructure in place, users may use several web-based services (e.g. internet forum, blog, online shopping, webmail) or network resources using only one set of credentials stored at a central location, as opposed to having to be granted a dedicated set of credentials for each service.
