INTRODUCTION TO MICROECONOMICS Syllabus

This review is probably biased because economics is my favorite subject. The book is cheap. This was the alternative my professor recommended to a \$300 textbook with way more color, pages, and prestige.

In 2012, I decided to try to learn MIT's 4-year undergraduate computer science curriculum in 12 months, without taking any classes. I was successful in passing the final exams for 33 classes and completing the required programming projects. You can view my TEDx Talk regarding the challenge, see links to all the free material I used, and see all the exams and projects I posted.
