Preface The past financial disasters have led to a great deal of emphasis on various forms of risk management such as market risk, credit risk and operational risk management.

Computational Risk Management - HKFRM

In quantitative risk assessment an annualized loss expectancy (ALE) may be used to justify the cost of implementing countermeasures to protect an asset. This may be calculated by multiplying the single loss expectancy (SLE), which is the loss of value based on a single security incident, with the annualized rate of occurrence (ARO), which is an estimate of how often a threat would be ...
