Methodology. In the late 1800s and most of the 1900s, language teaching was usually conceived in terms of method. In seeking to improve teaching practices, teachers and researchers would typically try to find out which method was the most effective. However, method is an ambiguous concept in language teaching, and has been used in many different ways. . According to Bell, this variety in use ...

Educational psychology is the branch of psychology concerned with the scientific study of human learning. The study of learning processes, from both cognitive and behavioral perspectives, allows researchers to understand individual differences in intelligence, cognitive development, affect, motivation, self-regulation, and self-concept, as well as their role in learning.
