Back in 2012 I updated a classic BIM graphic to show how BIM can bankrupt your firm. You can argue about the specific curves, but the essence is true. Here's the original image showing how BIM shifts when the bulk of an architect's time is spent:

Why BIM is Still Bankrupting Your Firm - Shoegnome Architects

Building information modeling (BIM) is a process involving the generation and management of digital representations of physical and functional characteristics of places. Building information models (BIMs) are files (often but not always in proprietary formats and containing proprietary data) which can be extracted, exchanged or networked to support decision-making regarding a building or other ...
