Puka shells originally were naturally occurring bead-like objects which can be found on some beaches in Hawaii. Each one was the beach-worn apex of a cone snail shell, a kind of seashell from a sea snail. Puka is the Hawaiian word for "hole" and refers to the naturally occurring hole in the middle of these rounded and worn shell fragments. These natural beads were made into necklaces.

Puka shell - Wikipedia

Conchiglie [koŋˈkʲiʃˈtʲe], commonly known as "shells" or "seashells" is a type of pasta. It is usually sold in the plain durum wheat variety, and also in colored varieties which use natural pigments, such as tomato extract, squid ink or spinach extract. The shell shape of the pasta allows the sauce to adhere to it.
